

The internationally renowned Technische Universität Berlin is located in Germany's capital city at the heart of Europe. With its seven faculties, 320 professors and more than 30,000 students, it is one of the largest technical universities in Germany. It strives to promote the dissemination of knowledge and to facilitate technological progress through adherence to the core principles of excellence and quality. The TU Berlin has extensive regional, national and international networks with partners in science and industry.

21 POSTDOC FELLOWSHIPS FOR INTERNATIONAL FEMALE RESEARCHERS

Between 2013 and 2018 the International Post-Doc Initiative (IPODI) of the Technische Universität Berlin awards 21 two-year fellowships to outstanding international researchers. The program addresses excellent female researchers regardless of their nationality or age and is open to all fields of research represented at the TU Berlin. Women returning from periods of international mobility (researching outside Germany), intersectoral mobility (working in the private sector) or non-academic mobility (e.g. after parental leave) are especially encouraged to apply.

IPODI awards seven fellowships per call in three internationally open selection rounds. The first call for applications is open between October 15, 2013 and January 15, 2014.

IPODI is co-funded by the Marie Curie Programme of the European Union (Co-funding of Regional, National, and International Programmes).

For current call for applications and application details visit:
www.ipodi.tu-berlin.de

Who Can Apply?

- Applicants must have at least two and not more than ten years of research experience after obtaining their doctoral degree, in exceptional cases an extension of up to three years is possible
- Applicants must not have resided in Germany for more than 12 months in the three years prior to the application deadline
- The research proposal has to fit into one of the fields of research represented in the seven faculties of the TU Berlin
- The research proposal has to be supported by a cooperating professor of the TU Berlin

The IPODI Selection Process
